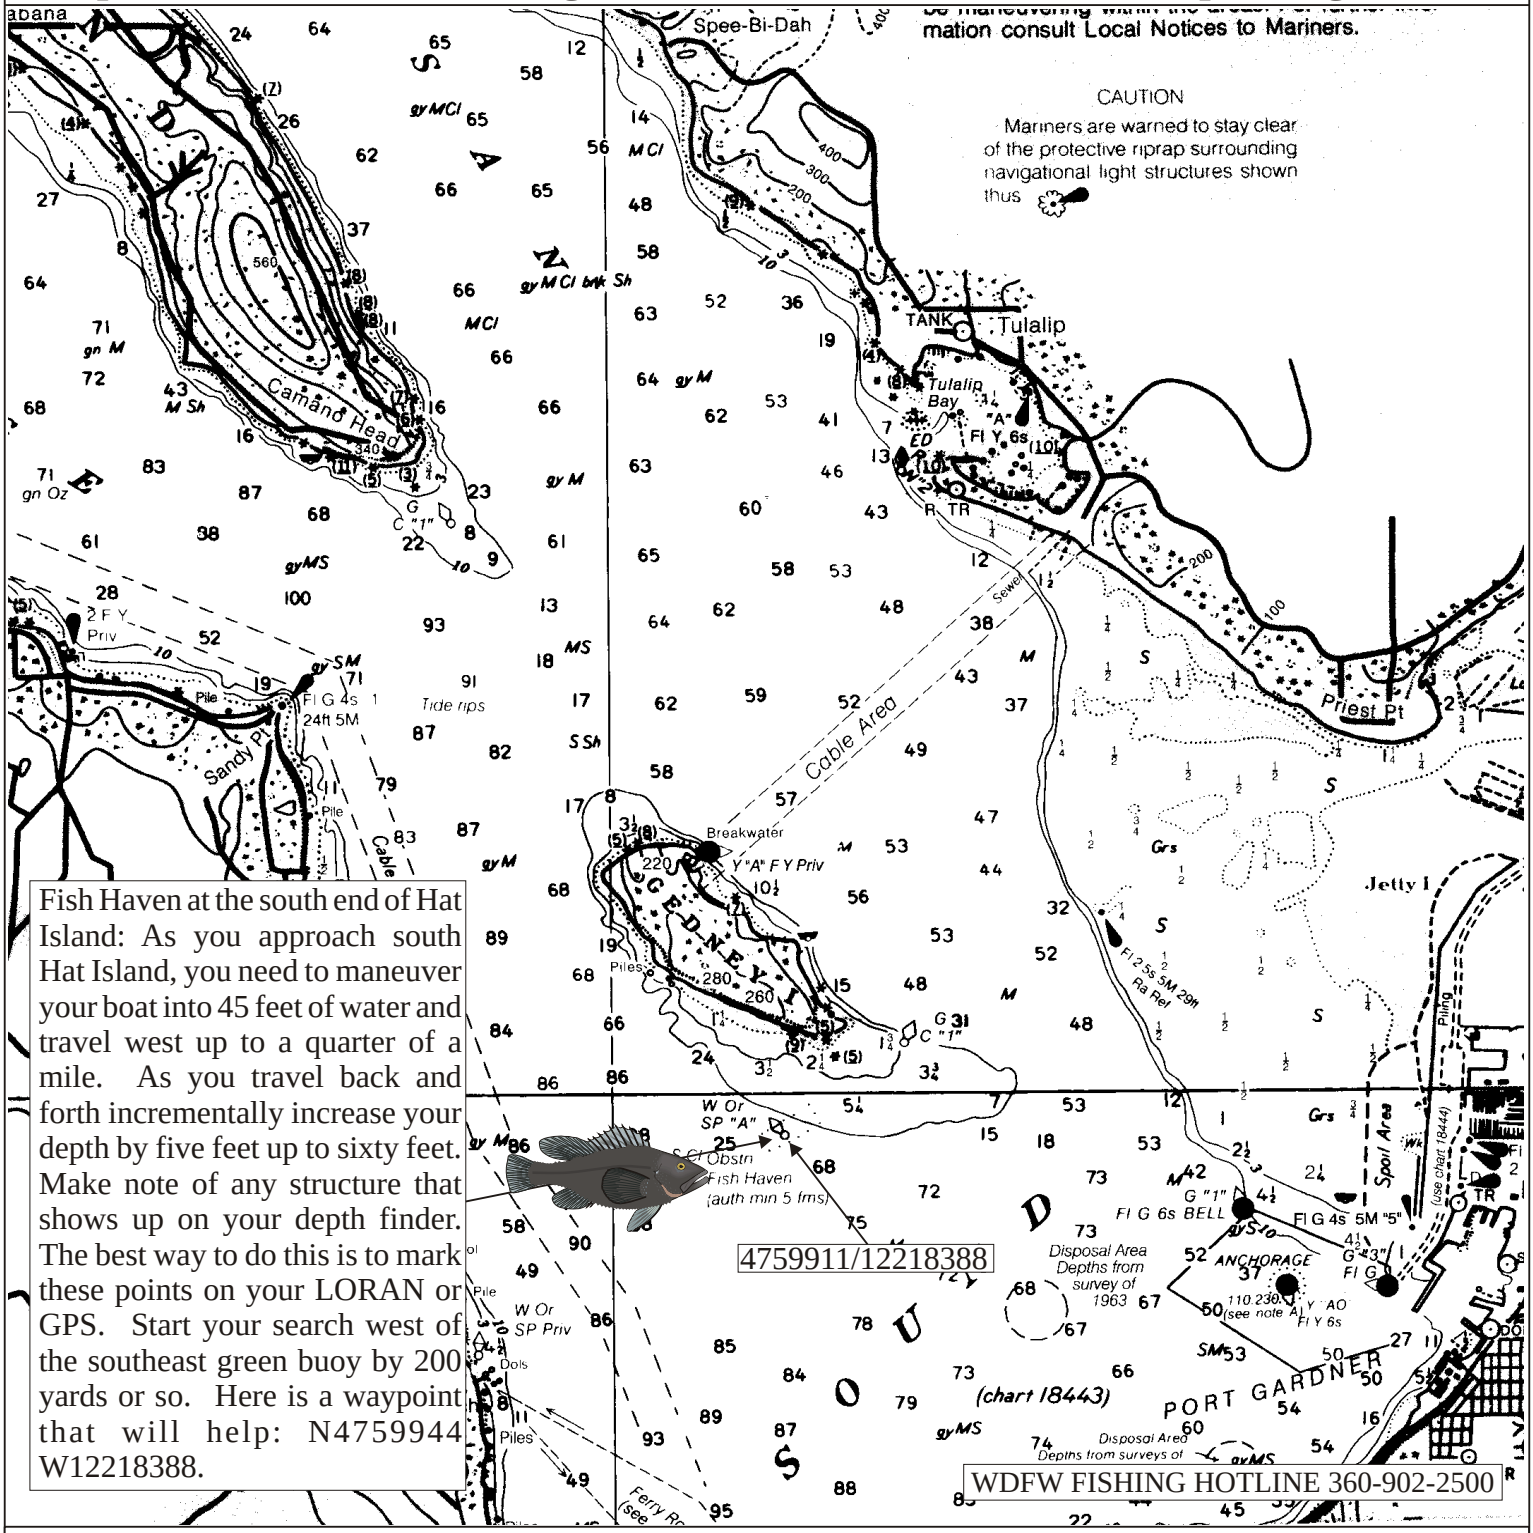
Fishing Maps

Maps For The Serious Angler — John's Sporting Goods



Fish Haven at the south end of Hat Island: As you approach south Hat Island, you need to maneuver your boat into 45 feet of water and travel west up to a quarter of a mile. As you travel back and forth incrementally increase your depth by five feet up to sixty feet. Make note of any structure that shows up on your depth finder. The best way to do this is to mark these points on your LORAN or GPS. Start your search west of the southeast green buoy by 200 yards or so. Here is a waypoint that will help: N4759944 W12218388.
