Maps For The Serious Angler

Fish as far back as here Boat Launch on the last hour of the Fort Casey out going tide Fish in this area the in the middle of the 4808.227N out going tide. 12244.078W Fish in this area the first part of the outgoing tide. Move Click Here for to the West as the Satellite Map tidal flow increases. 4806.767N 12241.266W In the middle of the outgoing tide, you need to drop back to the West even farther. On the most Western end of Marrowstone Head there is a sand spit. This is your landmark for your fishing Sand Spit Land Mark position halfway through the tide. "Prime Time", is ninety minutes before low tide. At this stage of the tide, the current will be slow enough to troll up and down the bar. At this stage of the tide, I like to drop back farther to the West and troll back to the sand spit landmark.
