Maps For The Serious Angler

John's Sporting Goods

I have heard from a very reliable source that does shrimping on Partridge bank, that this is one of the better places to go shrimping! There is loads of shrimp and there is virtually no one around who is doing any shrimping in this area. It is not uncommon to find shrimp on Partridge Bank in 300 feet of water. I would recommend the customary 250 feet and then set another pot at 300 feet until you get a feel of where the best areas are. You can find shrimp on both sides of the Bank. The places that are mapped out are a good starting point. I would encourage you to explore all areas of the Bank.
